3. Reserves:

No amount is proposed to be transferred to the Reserves.

4. State of Affairs:

During the year under review, the turnover of the Company increased by 24% as compared to the previous year. This was a result of increased occupancy achieved through marketing tie-ups and other initiatives taken by the management. The Average Room Revenue (ARR) also registered a reasonable increase. The Food & Beverages Segment also contributed significantly to the revenues.

However, operating margins were under pressure due to substantial increase in operating costs especially employee benefit cost. As a result the Company could not register profit.

Finance

The shortage of finance continues to be the major challenge before the Company. The parent company was not able to extend its helping hand due to its own problems.

Due to the NPA status, all the sources of raising further finance are blocked. The Promoters are doing whatever is possible in their individual capacity to remedy the situation.

The Company somehow managed its working capital needs through internal resources.

Current Year Prospects

The fortune of the hospitality industry has always been linked to the prospects of the tourism industry and general economic growth. On both fronts, the current year seems to be positive. The first quarter of the current year registered higher occupancy rate as compared to the corresponding period in previous year. Barring unforeseen difficulties, the

Hotel is expected to keep up its performance. However, due to reasons explained earlier, margins are likely to remain under pressure.

The chances of improvement in financial situation during the year look dim.

After finalization of OTS proposal, this amount of Rs. 1,02,50,000/- will be adjusted by the Bank against its dues. As a result the amount will be reduced from Current assets and Current liabilities. The management hopes that this OTS will be completed by end of current year.

- h. *Auditor's comment: As mentioned in various notes, no provision has been made for interest on Sales Tax Deferment and interest / penalties for non-payment / late payment of statutory dues and for non-compliance of legal formalities etc., if any. The amount is not ascertainable.*

The Company has paid Rs. 5,00,000/- out of the total deferred sales tax dues, The remaining balance is Rs.5,04,188.02. The Company would clear all the dues shortly. The delay was occurred due to financial difficulties. In case interest on Sales Tax Deferral loan, interest is not provided as the quantum of interest could not be ascertained.

- i. *Auditors' Comment: The Company's gross investments in equity shares of three subsidiary companies of Rs. 883.13 lakhs were sold during the year for an amount of Rs. 0.48 lakh only. The value of these investments was diminished progressively by charging to profit and loss accounts for the years from 2014-15 onwards. We have not examined the propriety of this sale, which is based on the management's assessment on the recoverability of these financial assets and of the consequent loss.*

These three subsidiary companies are non-operational. Their net-worth is completely eroded. They did not contribute anything to the Company but added the work of consolidation. The Company is not in a position to infuse funds in these companies for their revival. The management has chopped of some dead wood from its Balance Sheet.

- j. *Auditor's Comment: In the absence of the records, seized by Police authorities, the correctness of the amounts written off is not ascertainable.*

The management is unable to estimate the impact of audit qualification. However, it believes that there will be no significant impact on accounts (financial as well as disclosure) of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry structure and developments

The Indian tourism and hospitality industry has emerged as one of the key drivers of growth among the services sector in India. Tourism in India has significant potential considering the rich cultural and historical heritage, variety in ecology, terrains and places of natural beauty spread across the country. Tourism is also a potentially large employment generator besides being a significant source of foreign exchange for the country. During January-April 2018, FEEs from tourism increased 17.4 per cent year-on-year to US\$ 10.62 billion.

Total contribution by travel and tourism sector to India's GDP is expected to increase from Rs. 15.24 trillion (US\$ 234.03 billion) in 2017 to Rs. 32.05 trillion (US\$ 492.21 billion) in 2028. India ranked 7th among 184 countries in terms of travel & tourism's total contribution to GDP in 2017. Travel and tourism is the third largest foreign exchange earner for India. The Government of India has set a target of 20 million foreign tourist arrivals (FTAs) by 2020 and double the foreign exchange earnings as well.

The Government has also been making serious efforts to boost investments in tourism sector. In the hotel and tourism sector, 100 per cent FDI is allowed through the automatic route. A five-year tax holiday has been offered for 2, 3 and 4 star category hotels located around UNESCO World Heritage sites (except Delhi and Mumbai). The launch of several branding and marketing initiatives by the Government of India such as 'Incredible India!' and 'Athiti Devo Bhava' has provided a focused impetus to growth. The Indian government has also released a fresh category of visa - the medical visa or M visa, to encourage medical tourism in the country.

Some of the major initiatives planned by the Government of India to give a boost to the tourism and hospitality sector of India are as follows:

- The Government of India is working to achieve one per cent share in world's international tourist arrivals by 2020 and two per cent share by 2025.
- Under Budget 2018-19, the government has allotted Rs 1,250 crore (US\$ 183.89 million) for Integrated development of tourist circuits under Swadesh Darshan and Pilgrimage Rejuvenation and Spiritual Augmentation Drive.

Online hotel bookings in India have increased due to the growing penetration of the internet and smart phones. With the rise in the number of global tourists and realizing India's potential, many companies have invested in the tourism and hospitality sector.

The long term outlook for the Indian hospitality business continues to be positive, both for the business as well as the leisure segments, with potential for economic growth, increase in disposable incomes and the burgeoning middle class.

Overall, the hospitality industry would see better growth in the years to come.

2. Opportunities and Threats

The steady rise in tourism and prospects of better economic growth in the years to come hold lot of promises for the hospitality industry.

However, there are some basic challenges. The first being constant pressure to lower room rates to maintain occupancy levels. The second being the tightening margins with room rates not going up and operating costs sky-rocketing. Exchange rate volatility is the third challenge. And lastly, high interest rates affecting the debt servicing capacity of hospitality industry.

Talent management is also a key challenge for the sector. Inadequate supply of quality talent and increased competition for talent within the sector and from competing service sectors has made attrition a significant issue for the industry. On the other hand, the expectations of the guests of the level of service gone up immensely due to competition.

Lack of training, man power, political turbulence, changes in government norms and policies and high tax structure makes the industry worse off.

3. Finance

The Company continued to face paucity of funds during the year 2017 – 18. However, the working of the hotel has not suffered. The management is taking every effort to remedy the situation as early as possible.

4. Segment-wise or product-wise performance

The Company works in Hospitality segment. During the year under review, the sales / turnover of Dhanada Corporation Ltd. have increased as compared to the previous year. However, operating margins continued to be under pressure. The Company has suffered losses.

5. Outlook

Barring unforeseen difficulties, the hospitality sector looks forward to keep up its performance.

6. Risks and concerns

Apart from the general economic situation, seasonality, growing competition, the socio-political situation, governmental restrictions, changes in government norms and policies, power and water shortages and lack of infrastructure facilities, high interest rate and borrowing cost, fluctuation in foreign exchange rates, global recession and natural calamities are some of risks, which could affect the performance of the Company.

The stagnancy of ARR also remains an area of concern. Paucity of funds remains the main concern.

7. Internal control systems and their adequacy

Internal Control Systems are adequate and operating effectively commensurate with the size, nature of operations of the Company.

8. Discussion on financial performance with respect to operational performance

The operational performance of the Company has increased as compared to the previous year.

The financial performance declined due to increase in employee benefit costs, finance costs and other expenses. The Company has suffered losses.

The Company under the guidance of VITIZEN Hotels Limited has appointed the necessary staff required for the Hotel. The training and development of the personnel is looked after by Vits Hotels Worldwide Private Limited. The Company has 78 employees as on 25th May 2018.

10. Cautionary Statement

ANNEXURE-B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Dhanada Corporation Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects except i. Control over inventories, ii. reconciliation of debtors accounts and iii. reconciliation of creditors accounts, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

 NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

17. Contingent Assets and Contingent Liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or nonoccurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the entity.

The Company does not recognize a contingent asset but discloses its existence in the financial statements if the inflow of economic benefits is probable.

18. Financial Assets:**Initial recognition and measurement:**

All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset, in the case of financial assets not recorded at fair value through profit or loss.

Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

19. Financial liabilities:**Initial recognition and measurement:**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, or as loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

20. Significant accounting judgements, estimates and assumptions:

The preparation of the company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

B. Other Notes forming part of the Balance Sheet as at 31st March 2018 and Profit and Loss Account for the year ended on that date:

a. Exemptions applied

There is no change in the functional Currency of the Company and accordingly, it has elected to continue with the carrying values for all of its property, plant and equipment and intangible assets as recognized in its Indian statements as the deemed cost at the transition date. Accumulated depreciation was calculated on that amount as at the date of transition to Ind AS on the basis of the current estimate of the useful life of the asset using the depreciation policy adopted by the company in accordance with Ind AS.

- II. Derecognition of financial assets and financial liabilities

The Company has applied the derecognition requirements for financial assets and financial liabilities in Ind AS 109 prospectively for transactions occurring on or after the transition to Ind AS.

- III. Classification and measurement of financial assets
